Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trougher. I was so bad at times I would faint, away and had sinking spells. Finally a mew doctor was called in, and he said that I had kidney trouble, and gave me medicine, of which I took several bottles. I obtained some relief from this, but I was getting weaker all the time; I could not sleep and suffered so much pain that, my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, and I feel that I owe my life to this wond for the country. One criticism of the first plan was observed to the country. In the organization of the executive committee of nine members, upon which it has been said much of the active management of the association would fall, only one of the five elected members (the other four being the governor of the association, his two deputies, and the Comptroller of the Currency, ex-officio) may be chosen from any one district. The whole board of directors may reserve to itself any authority it desires, and is not bound the lectrons. His remains were brought to Salem last night and were interred to Sal

board of directors, and that the Presi-dent should also have power to remove the governor. The revised plan re-serves the right of removal to a two-thirds vote of the board. One important change is the admis-sion to membership of State banks and trust companies which conform to a required standard. A State bank or trust company to be eligible must con-form to the same standard as national banks, regarding the relation of its banks, regarding the relation of its capital to the population of the com-

This provision, which resembles those in the trust company laws of some States, is expected to make it more profitable for national banks to hold time deposits in competition with trust companies. Banks of all classes will have the full use of time deposits without reserve restrictions until thirty days from maturing time, when standard reserves will be required.
